

Remarks

The Office Action dated December 17, 2009, has been received and carefully reviewed. Claims 1, 3-8, 10-12, 15, 17, 19, 20, 22-30, 33-38, 41-43, 45-48 and 51-58 are pending in the application. In this filing, claims 15, 51 and 52 have been amended and claim 58 has been added. Support for the amendments to claims 15 and 51 may be found in Figures 5(a)-(b), in the specification at pages 25-27, and in original claims 11 and 14. Support for the amendment to claim 52 may be found in Figures 5(a)-(b) and 6(a)-(b), in the specification at pages 27-28, as well as in original claim 16. Support for claim 58 may be found at page 8 and elsewhere in the specification and drawings, as well as in original claim 22. No new matter has been added.

Applicant elects the species of Group 4, corresponding to the embodiment shown in Figures 5a and 5b. Claims 15, 17, 51, 52, 57 and 58 read on the elected species. The election is made *with* traverse.

Claim 52 has been amended to recite “a [housing] member having said first and second reflective surfaces integral therewith, wherein said first and second reflective surfaces are non-parallel with respect to one another.” Both the embodiments shown in figures 5(a)-(b) and 6(a)-(d) have a housing comprising a member with “first and second reflective surfaces integral therewith.” In the embodiment of Figure 5(a)-(b), the frame member 116 has the first and second reflective surfaces 122 and 126 integral with the frame member. In the embodiment of Figure 6(a)-(d), the housing is a single-piece member having the first and second reflective surfaces integral therewith as well. As

such, claim 52 is now generic to both species and Applicant requests reconsideration of the restriction between the species of Figures 5(a)-(b) and Figure 6(a)-(d) and the identification of a generic claim.
